

The Leading Supplier of Photoeyes to the Car Wash Industry

Vehicle Detection for:

- Travel of Spray Booms
- Wheel Scrubs
- Rollover Arches
- Blowers
- Overhead Doors
- Entry Keypads

Photoelectric Features:

Innovative Design for Detection Through:

- Water
- Soap
- Ice
- Sunlight
- Wax
- Steam

Threaded or Smooth Bodied Housings

Standalone Sensors with Self Contained Output or Sensors with External Amplifier

Amplifiers for Multiple Sets of Photoeyes

...Offering So Much More

Ultrasonic Sensors

for Position
Detection and
Profiling

Inductive Sensors for End of Travel
Detection

Capacitive Sensors

for Level
Detection of
Soap/Wax

**Contactors
and Starters**

for Switching
Motors

**Soft
start**

for Dryer Motor
Control

**PLCs
and Timers**

for Control of
Various Functions
